

Catholic Health Services

-2022-

Report To The Community

Message from the CEO

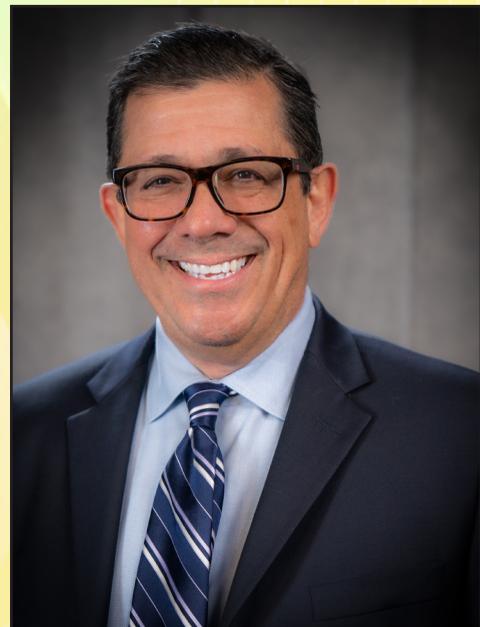

Dear Friends,

Catholic Health Services' annual Community Benefit Report describes where and how we have responded over the past year to the needs and opportunities within our South Florida community. The report represents the efforts of the 2,500 men and women who carry out our Mission day after day, in thirty two CHS facilities in eight different ministries with the Archdiocese of Miami. It depicts how we create, implement and measure the value of our numerous health services, programs and educational offerings benefiting the community.

Catholic Health Services is one of the largest, most comprehensive care continuums in the southeast United States. CHS is driven by our Mission to provide the highest quality health care and services to those in need, regardless of one's ability to pay. As a ministry of the Archdiocese of Miami we devote a portion of our revenue to helping people who cannot afford our services. In the 2022 fiscal year, the entities of Catholic Health Services provided over \$28 million in charitable or uncompensated care to those who need it most.

Thank you for letting us be part of the growth and dynamic change of South Florida and we look forward to carrying on our tradition of caring for the physical, as well as the spiritual needs of our community for succeeding generations.

Sincerely,

Aristides Pallin
President
&
Chief Executive Officer

Catholic Health Services Community Benefit Breakdown
